One Stop Store

Shopping Site: Java based Dynamic Web Application created with Java, Eclipse IDE, JSP/Servlets, JDBC (for Connection with MYSQL Database), Apache Tomcat and Java Mail (SMTP).

Main Modules:

The core requirements of this application are split across four modules

- Admin Functionality
- User Login
- Look out for Products Interested in
- Get in touch with Us via E-mail Functionality

A walk through my created website, hope this helps!

Admin Functionality

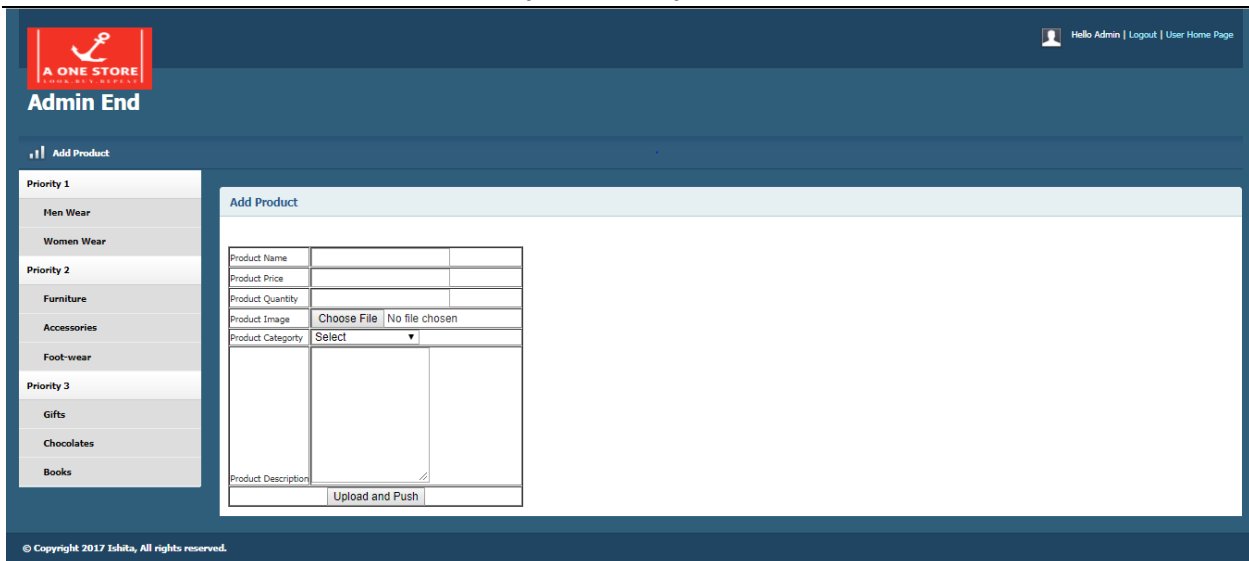

An admin visits a login page and enters his credentials: username and a password. On submitting this information, the system will direct the admin to the page “Add Products” it is only accessible to the admin.

From here the Admin can upload and populate the products and the information and that would be all retrieved and seen by the user on his Home Page.

So to conclude, the user sees only that the Admin wants the user to see. Logout button is provided at many places to logout of the session.

Admin can also go to the Home page meant for him, that looks exactly like one for the User.

User Functionality

A user here is someone who would want to use One Stop Shop for Shopping. A user needs to register as a member to avail the feature of Shopping and get discounts in future. There two different roles of Admin and a User. These 2 roles have different access.

One Stop Shopping website is flexible to use and the signifiers make it pretty easy to navigate. It has a home/ Introduction page which has a login form. A new user should register as member by filling a Signup form. A “Login” button is displayed on this Page. On clicking there, it will take the guest user to a Login page and is the user as his credentials he can enter them here and go ahead, if not then can follow the SignUp link and fill the

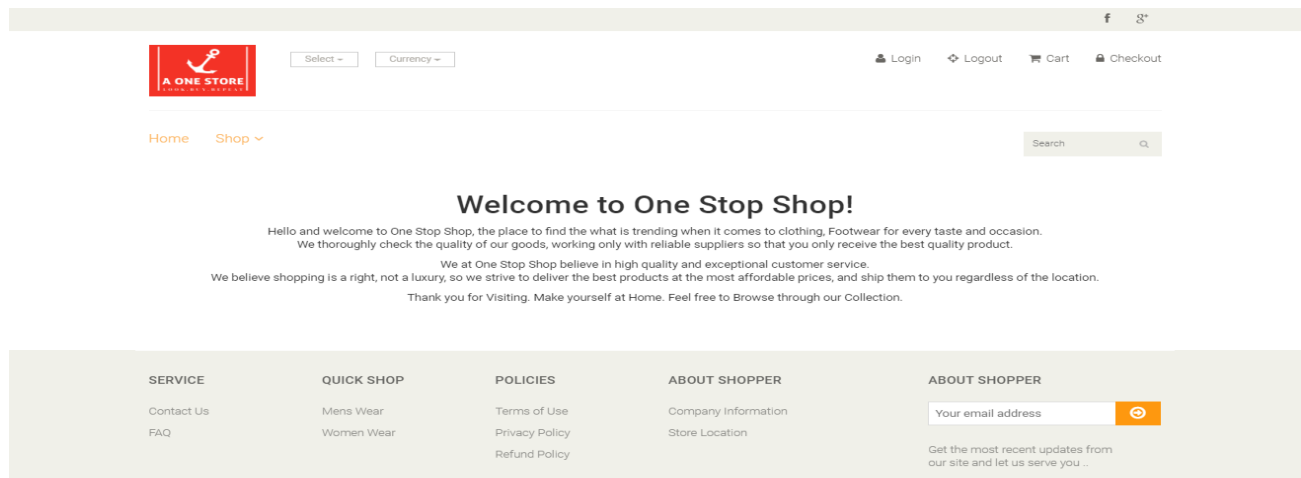

Network-Based Application Development (ITIS 5166)

“Signup” Form, followed by this can login with the same credentials and access the User Home Page.

A user can book a Start Shopping upon successful login. Select the Products he/she likes and can add it to cart and proceed to checkout.

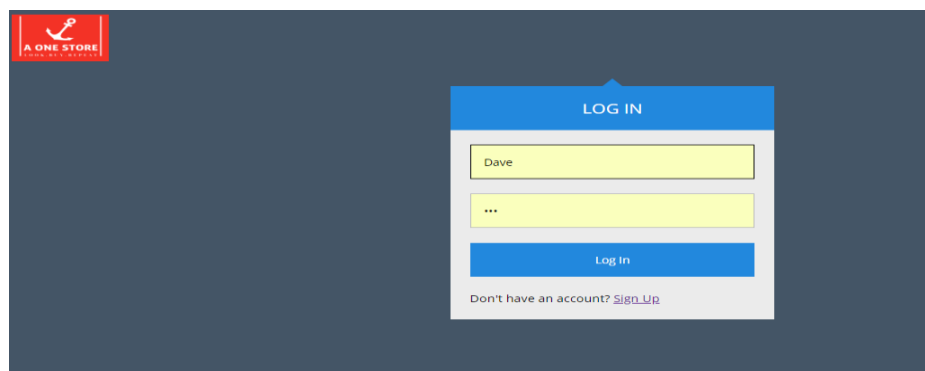

Logout button is provided at many places to logout of the session

User Introduction/ Admin can see the same Page –

Login Page for both Admin and User, here our user goes by the username “Dave”

This Page even re-directs you to the “Sign Up” Page –

Email Functionality

An email feature is given in the Contact Us Page, where users can drop a mail to the Admin

The screenshot displays the top section of the 'A ONE STORE' website. At the top left is the store's logo. To its right are two dropdown menus labeled 'Select' and 'Currency'. Further right are links for 'Login', 'Logout', 'Cart', and 'Checkout'. Below these is a navigation bar with 'Home' and 'Shop' (with a dropdown arrow), and a search bar on the right. The main content area features the heading 'Receive an E-mail from us'. Below this heading are three input fields: 'Your E-mail address', 'Regarding (Subject)', and a larger 'Message (Description)' field. A 'Send' button is positioned at the bottom of the message field. At the very bottom of the page is a footer bar containing links for 'SERVICE', 'QUICK SHOP', 'POLICIES', 'ABOUT SHOPPER', and 'ABOUT SHOPPER'.

Help Centre

Assistance at your fingertips

xx: Returns, Exchange, Damaged product

Frequently Asked Questions

- How can I return or exchange an item?
- Should I call Flipkart's Customer Care for installation once my product is delivered?
- I have requested for a return for my item. When will it happen?
- Why can't I track my order even though it has been shipped?
- I've still not received the refund in my bank account.
- I have requested a replacement, when will I get it?

You may visit [My Orders](#) to check the status of your replacement. In most locations, the replacement item is delivered to you at the time of pick-up. In all other areas, the replacement is initiated after the originally delivered item is picked up. Please check the SMS & email that will be sent to you for your replacement request for more details.

How can I add a new delivery address to my One Stop Shop account?

Issue still not resolved?
